🎯 Career Objective / Summary

Creative and detail-oriented Frontend Developer with hands-on experience in building responsive and interactive user interfaces using **React.js**, **Tailwind CSS**, and **modern JavaScript**. Proficient in integrating **Firebase** for backend features and using **SASS** to build scalable and maintainable styles. Familiar with **Figma** for UI/UX design collaboration. Passionate about clean code, pixel-perfect UI, and continuously learning to improve frontend performance. Currently learning **Next.js** to further enhance full-stack capabilities. Seeking a challenging internship opportunity to apply and expand my skills in a real-world development environment.

💡 Technical Skills

- **Languages:** HTML, CSS, JavaScript (ES6+)

- **Frontend Libraries:** React.js, Tailwind CSS, SASS,Redux(medium)

- **Currently Learning:** Next.js

- **Tools & Platforms:** Firebase (Auth, Firestore), Git, GitHub, VS Code, Figma

- **Others:** Responsive Design, Component-Based Architecture, REST APIs (basic)
